## Handbrake Shoe Bracket - Repair Kit

**Model**

**Art No**

S60, S80, V70N

55436002

For a broken handbrake stop - with the hand brake shoe bracket you don't have to replace the entire brake shoe attaching plate. It is plated and top coated and it will save you time and money.

**A/C Compressor**

| Model | Engine | Year | Oe Ref | Art No |
|-------|--------|------|--------|--------|
|-------|--------|------|--------|--------|

Attention! When an A/C compressor stops working, it is most often due to a faulty A/C clutch.  
 Test the A/C clutch by putting 12 volts on the electrical input of the A/C compressor, when engine is switched off.  
 If you hear a click sound, the clutch is working. If the A/C clutch is faulty there will be no sound at all.  
 Replacing the clutch alone is relatively easy and considerably cheaper than replacing the entire compressor.

## Replacement guide for 83438800 S60I, S80I, V70II, XC70II & XC90

1) Open the old remote control cover.  
Carefully saw the middle upper part  
using a hacksaw where shown  
in the picture (it is glued together)

2) Cut out the small chip from inside the lid.  
Use caution, chip is very fragile.  
Put chip into the new remote control cover,  
close it and check that it works properly

3) See to that the key feather is properly  
mounted for opening of the manual key.  
Glue together chip and lid

4) You are now ready to start using  
your new Proparts remote control cover!
