Proparts own strut bar conversion kit - now in stock!

We would like to present our new strut bar conversion kit. An easily mounted performance upgrade with powder coated finish. This kit replaces the factory rubberized bushings and converts the engine bar into a strut bar, thereby eliminating unnecessary engine bar movement. By limiting engine bar movement, engine power and control is maximized and transmission shifting works smoother.

Advantages of this complete high performance kit is improved chassis rigidity during body flex, reduced understeer and improved tire wear.

A must have for vehicles with sway bars, lowering springs, or performance shocks.

Position rear upper, left & right. Fits Volvo S80II year 1999-06, S60I year 2001-09, V70II & XC70II year 2001-07 & XC90 year 2003-14

Oe ref 9203968 & 9203967

Part nr **62433900**
